

CAPITAL DISTRICT DATA

NOVEMBER/DECEMBER 2000

VOLUME 23, NUMBER 6

Capital Region Public School Data

As part of its annual report to the Governor and the Legislature, the State Education Department submits *Statistical Profiles of Public School Districts*, which contain detailed information on students, faculty, fiscal measures, and test results for each public school district in the State.

For the first three categories, CDRPC has compiled a database for the reporting years 1987-88 through 1998-99. Data items which are not available for some of the smaller school districts, such as North Greenbush Common Schools, are indicated by blank values in the table. Estimates for county and Regional totals were based on averages weighted by student enrollment or teachers.

Table and Chart Definitions

Total Enrollment represents the number of students enrolled in kindergarten through twelfth grade and those in ungraded classes for children with disabilities.

FTE Enrollment for General Education is the full-time equivalent K-12 daily membership plus students for whom the district pays tuition to another school district, including students classified both with and without disabilities.

FTE Enrollment for Special Education is the full-time equivalent K-12 count of students with disabilities.

Poverty Level Children (percentage) is the number of children age 5-17 in families below the poverty level divided by the total number of children age 5-17, as derived by the State Education Department from *Census* data.

Percent Regents Diploma is the number of H.S. graduates receiving Regents diplomas divided by total diplomas. In the late 1980's, differences between the adopted curriculum plans of certain school districts and a new Regents Action Plan resulted in those districts granting few or no Regents Diplomas.

Percent to College is the number of High School graduates entering 4-year, 2-year, or other post-secondary institutions divided by the total number of graduates.

Pupil to Teacher Ratio is district enrollment divided by the number of full- and part-time classroom teachers.

Median Salary is the median for all full-time public school classroom teachers in a district. Statistically, half of all teachers will be earning less than, and half more than the median salary. This data is omitted in years for which a district did not have a salary agreement in effect.

Extreme care should be exercised in using the reported median teacher salaries for comparisons between and among school districts. Teachers' salaries are typically determined by a combination of education level and experience. Without access to a school district's "Teachers' Scale," the matrix giving base salaries for various combinations of teacher education and experience, it is simply not possible to fairly compare teacher compensation among the Capital Region's school districts. High median salaries in a particular school district may reflect a high level of teacher education and/or experience and/or a Teachers' Scale with relatively high base salaries.

Expenditures Per Pupil is total district expenditures divided by average daily enrollment. Expenditures include general, debt service, and special aid funds, but exclude the State aid withheld as the State's share of local Teachers' Retirement System and Employees' Retirement System savings. Enrollment includes students enrolled in district programs; disabled pupils educated in the district, BOCES, \$4402 and \$4405 programs (including the State schools at Rome & Batavia); and students educated in other districts for whom the district pays tuition. Pre-kindergarten and half-day kindergarten pupils are counted at 50%.

Expenditures per pupil are not reported for school districts with fewer than eight teachers.

Capital District Data Subscriptions

Capital District Data is a bi-monthly, four-to-six page newsletter with regular features on Regional trends. Data reported at least annually include municipal property tax rates and finances, Multiple Listing Service (MLS) home sales, municipal building permit issuances, poverty thresholds, public school district data, taxable sales, Consumer Price Index, and monthly employment, unemployment, and unemployment rates. Data reported as it becomes available include Census Bureau estimates and decennial Census results, CDRPC population and household projections, migration of taxpayers and their dependents, and resident live births.

The printed version of *Capital District Data* is available for \$21/year. *Capital District Data* is also available in the form of an e-mail attachment PDF file for only \$9/year. PDF files may be read and printed by the Adobe Acrobat Reader, available on the web free at <http://www.adobe.com/products/acrobat/readstep.html>.

To subscribe to either the print or e-mail versions, please call CDRPC's offices between 8:30 a.m. and 4:30 p.m., Monday through Friday.

Subscription orders may also be placed online at the Planning Commission's web site Publications Page: <http://www.cdrpc.org/publicat.html>.
