MAY/JUNE 2015

VOLUME 38, NUMBER 3

## Capital Region Continues to See Housing Rebound

Since the economic recession and coinciding downturn in the housing market, new housing construction in the region has been slowly improving and is approaching pre-recession levels. ...

The newest trend since emerging from the economic recession has been a greater emphasis on multi-family housing. Between 1984 and 2010, permits for multi-family units exceeded 40% of the total permits issued only once, in 2007. Between 2011 and 2015, permits for multi-family units have averaged 46.5% of the total permits issued. This unprecedented focus on multi-family structures is indicative of changing demands. Millennials have put off purchasing traditional single family homes, while simultaneously retirees are seeking to scale down from large single family homes in favor of something smaller requiring less maintenance.

Recording only 978 building permits in 2011, the Region has rebounded with more than 1,200 permits annually. Furthermore, each subsequent year has recorded more permits than the previous year, a sign that the market continues to strengthen following seven consecutive years of

declining activity. In 2014, the Region recorded 1,308 building permits, a 33.7% increase from 2011 and a 2.3% increase from 2013. 2014 also recorded the highest number of units (2,201) since 2007. 2014 saw an increase in the number of units permitted of 11.8% from the previous year. Lastly, the value of the new homes constructed in 2014 rose 3.7% when held constant at 2014 dollars.

Three of the Region's four counties showed year to year increases in permits issued. Rensselaer County led the way with a 15.4% increase from 2013 to 2014, recording 150 permits in 2014. Albany County followed with a 10.8% increase in building permits. Schenectady County was the final county to record an increase in building permits with an 8.5% growth rate over 2013. Surprisingly, only Saratoga County saw the number of permits decrease year to year, falling 5.5%. The year to year change in the number of units for which permits were issued saw mixed

## Capital Region Continues to see Housing Rebound, continued

*cont'd from pg. 1*

results. While Rensselaer County saw an increase in the number of building permits issued, the number of units fell 4% from 2013. Conversely, Albany and Schenectady counties saw the number of units increase by 25.8% and 145.2% respectively. Saratoga experienced a 5.2% decrease in the number of units. Constant-dollar permit value increased by 2.2% in Rensselaer County, 7.8% in Albany County and 113.4% in Schenectady County. Permit value decreased 6.6% in Saratoga County.

Of the Region's core cities of Albany, Saratoga Springs, Schenectady, and Troy, only Troy saw a decline in the number of permits, units, and value, year to year. Albany experienced a 56.7% increase in

building permits, while the number of units declined 7.1% and value decreased 33.4%. Saratoga Springs experienced a 32.8% increase in the number of new building permits issued, along with a 21.5% increase in the number of units and a 43.8% increase in the value of the permits. In the City of Schenectady, no residential building permits were issued in 2013; in 2014 the City reported 2 building permits for 2 units, for a combined value of \$400,000. Troy experienced a 20% decline in the number of new building permits from 2013 along with an 83.1% decline in the number of units and a 74% decline in the total value of the permits issued.
