

# **CLEAN ENERGY COMMUNITIES PROGRAM**

## **The Benefits of PACE Financing For Your Community**

**November 16th 2pm-4pm**

**Mohawk Valley Economic Development District  
26 W. Main Street, Mohawk, NY**

### **Lead By Example. Reduce Your Environmental Impact.**

Building a more sustainable New York starts with building more sustainable communities. Local governments affect energy choices in their communities, from government operations to homes, businesses, and community institutions.

Local governments in New York State can use the Clean Energy Communities program to implement clean energy actions, save energy costs, create jobs, and improve the environment. In addition to providing tools, resources, and technical assistance, the program recognizes and rewards leadership for the completion of clean energy projects.

To be designated a Clean Energy Community a municipality must complete four of the 10 High Impact Actions.

One of the 10 actions is [Energize NY Finance](#).

**Join Us On November 16th from 2-4pm at Mohawk Valley Economic Development District 26 W. Main Street, Mohawk, NY to learn more about ENERGIZE NY PACE Financing.**

Energize NY Finance leverages PACE (Property Assessed Clean Energy) financing to help commercial and non-profit property owners undertake deep energy improvements. This allows property owners to pay back the cost of clean energy upgrades to their commercial or non-profit property through a special charge on their property tax bill.

**Hear from Joseph DeSindaco, PACE Advisor to the Energy Improvement Corporation, on how your community can implement PACE Financing.**
