There were no guests in attendance.

2. July 20, 2011 Meeting Minutes

The minutes were distributed before the meeting.

Action Taken
No action taken due to lack of quorum.

3. Appointment of Nominating Committee

Barbara Mauro selected Judy Breselor as Chair and Paul Sausville to serve on the nominating committee for 2012 officers. Judy will report back at the December commission meeting with the recommendations for 2012 officers.

The financial statement represents activities through September 30, 2011. The revenues are at 81.1% of the budgeted amount and expenses are at 65.3%. There is approximately $169,017 cash in the bank and outstanding receivables totaling $112,090. There are also three Certificates of Deposit totaling $87,723.11.

The third quarter invoices have been sent out to the appropriate billing agencies for the CDYCI, CSO, Water Quality, and the UPWP work programs.

Action Taken
No action taken due to lack of quorum.
5. **HUD Sustainable Communities Regional Planning Grant Submittal**

CDRPC submitted the Sustainable Communities Regional Planning Grant application to HUD as the lead application on October 4, 2011. This grant is an initiative jointly implemented by HUD, the US Department of Transportation, and the US Environmental Protection Agency (EPA) and is designed to create and support Regional Plans that integrate housing, land use, economic and workforce development, transportation and infrastructure investments.

Though CDRPC will be the lead applicant, a strong consortium of 42 partners has been established that includes the public, private, and non-profit sectors. Some of the partners include Affordable Housing Partnership of the Capital Region, Capital District Community Loan Fund, Behan Planning & Designs, CDTC, CEG, CARES, Capital District Community Gardens, Erie Canalway National Heritage Corridor and University at Albany.

The grant is for three years and CDRPC is applying for $2.4 million from HUD over three years with a match of almost $1.9 million by the various partners. CDRPC’s share over the three year period is $543,500 with a match of $187,000.

6. **NYSERDA Climate Smart Communities Grant Award**

In April CDRPC submitted a proposal to provide services under the Climate Smart Communities grant for $322,000 for the first year. NYSERDA is interested in further pursuing the proposal that was submitted to prepare the scope of work. If an agreement can be reached with NYSERDA, the project team will consist of CDRPC and consulting firms, VHB and Climate Action Associates.

The grant is designed to be a multi-year program, however funding is only available for the first year. NYSERDA does anticipate receiving additional funding for the program as well as providing further clarification of how it will parallel the activities proposed under the Governor’s recently announced Cleaner Greener Communities Grant Program.

The first phase of work will be to develop a Regional Greenhouse Gas Inventory including estimates of greenhouse gas emissions from a variety of sources, the preparation of a Climate Smart Strategic Plan to enhance community awareness and understanding of Climate Smart initiatives they may want to pursue, and outreach and support initially to communities that have signed the Climate Smart Pledge.

The footprint for this project is Albany, Rensselaer, Saratoga, Schenectady Counties as well as Columbia and Greene counties. The scope of work is less comprehensive than the Cleaner Greener Grant proposal however, there are parallel activities.

CDRPC will be the lead applicant on the grant. The total grant amount is for $322,000 and CDRPC’s share will be $75,000.
7. **NYSERDA Cleaner Greener Communities Grant Program**

This grant is a multi-stage competitive grant program designed to encourage communities to develop regional sustainable growth strategies. The plan involves an 8 county area including our four counties as well as Columbia, Greene, Warren and Washington counties. A total of $9.6 million is available to prepare comprehensive Regional Sustainability Plans in each of the ten economic development council regions created by the Governor and to identify the activities or types of projects needed to achieve the Plan’s objectives. Up to $90 million will be made available statewide to implement the projects identified in each Plan. The Plan must be completed within 8 months of contract signing.

Despite its emphasis on regional strategies, only municipalities (counties, cities, towns and villages) are eligible to apply. A meeting was held on October 3rd with interested municipalities located within the 8 county Capital Region Economic Development Council region to gauge interest in the program. It was agreed to by those in attendance that a single application be submitted with the City of Albany being the lead applicant. The application deadline is October 31, 2011.

Rocky is requesting Commission approval to support this application and work with the City of Albany and all of the Capital Region communities in the preparation of the Regional Sustainability Plan. It is unknown at this time what role CDRPC will play in the Plan.

Paul Sauville inquired if there would be a need to hire another staff person in order to accommodate the workload. Hiring a new staff person is dependent upon a number of factors including staff’s continued involvement with the CSO project, the HUD Grant and the Cleaner Greener Communities Grant coming through. Rocky will discuss with the Commission at the next meeting how he plans to proceed in terms of hiring another staff person.

After some discussion, Jack Murray suggested the Commission support the City of Albany in preparing the application for the deadline of October 31, 2011. The others in attendance agreed that CDRPC support makes sense.

**Action Taken**

No action taken due to lack of quorum.

8. **Capital Region Economic Development Council**

The Governor has created ten Economic Development Councils across New York State to prepare a Regional Strategic Plan. The state was subdivided into ten regions using the existing State Labor Department regions. The Capital Region Economic Development Council includes the counties of Albany, Columbia, Greene, Rensselaer, Saratoga, Schenectady, Warren, and Washington.
The Capital Region Council is co-shared by Dr. Shirley Jackson, the President of RPI and Michael Castellana, the President and CEO of SEFCU.

The draft 5 year Strategic Plan was in the process of being prepared. The next public meetings are scheduled for October 20th at 9:30am at the Saratoga Springs City Center and November 3rd, location to be announced. The final Strategic Plan will be submitted to the Review Committee on November 15th.

The five workgroups that were created are: Key Issues/Opportunities workgroup, Strategic Plan workgroup, Public Engagement Workgroup, Metrics Workgroup and Project Priorities Workgroup. Rocky is involved with the Strategic Plan Workgroup the Key/Issues Opportunities Workgroup and the Metrics Workgroup.

The Strategic Planning Workgroup came up with the following five proposed strategies: demand and reward collaboration, bring coherence to workforce development, improve (renew & expand) infrastructure to support economic development and a vibrant business climate, enhance quality of life and market the strengths and successes of the Capital Region.

There is an initial allocation of $200 million, $130 in financial resources and $70 million in tax credits. The four regions with the top Strategic Plans will each receive $40 million and the six remaining regions will divide the remaining $40 million. Paul Sausville inquired if this is new money or reallocation of existing money. The $200 million is money set aside for economic development initiatives that were included in Empire State Development 2011-2012 budget.

In addition, there is approximately $800 million in funding from over 13 agencies including Parks & Recreation, the Canal Corporation, Economic Development, Transportation, etc which will be reviewed and ranked by the local Regional Councils through the Consolidated Funding Application process. In order to apply for funding, the CFA process must be used. The CFA deadline is October 31, 2011.

The Regional Councils will identify their preferred list of endorsed projects to the funding agencies by November 14, 2011.

9. LTCP – CSO Update

The CSO Long Term Control Plan was submitted to NYS DEC on June 30, 2011. To date, no information has been forthcoming on the NYS DEC review.

NYS DOS has informed CDRPC that they expect to release grant applications for another round of SMI. CDRPC will be preparing an application for funding to explore alternative organizational arrangements for Phase II of the CSO Project.

10. Staff Activity Report

The Staff Activity Report was distributed before the meeting. There was no discussion.
11. Other Business

The next Commission meeting is scheduled for December 21, 2011, however Rocky suggested moving the meeting to December 14 due to the Christmas holiday. An email will be sent to the Commissioners inquiring which date works best for them. Once that information is received, we will inform the Commissioners of the December meeting date.

Adjournment
No action taken due to lack of quorum.

Respectfully submitted,

Barbara Mauro,
Chair

Re: Monthly Financial Statement

Enclosed for your review and approval are the current financial statements through November 2011. Through the first eleven months of the fiscal year, revenues are at 84.5% of the budgeted amount and expenses are at 88.0%.

The revenues do not reflect work completed during October and November for contracts that are billed on a quarterly basis. (October – December). For expenses, with the exception of the utility costs, the rent has been fully paid for 2011 along with the employee health insurance. Also, the New York State Retirement bill payment due in February 2012 was fully paid in the amount of $62,259 which is reflected on the statement. Last year, the amount paid into the Retirement system was $38,364.

As noted on the Statement of Financial Condition, on November 30th we had $93,720 cash in the bank and outstanding receivables totaling $86,143. We also have three Certificates of Deposit which are listed on the following table.

Re: Proposed 2012 Provisional Budget

Enclosed for your review and approval is the proposed 2012 Provisional Budget for CDRPC operations.

The proposed budget includes three columns in addition to the Account names. The first column identifies the 2011 Approved Budget amount, the second is the proposed 2012 Budget amount, and the third column represents the difference between the 2011 and 2012 Budgets.

Budget highlights include the following:

- The proposed county dues will remain the same for 2012. However, each county’s assessment has been revised to reflect its proportionate share of the population based on the 2010 Census as required per the Inter-municipal agreement establishing the Commission in 1967. Also, any adjustment by one county impacts the contributions from the remaining three counties.

- The $20,000 in Contractual Services represents the aggregate amount of signed contracts with several of the area school districts plus other possible contractual arrangements presently under discussion.

- Anticipated revenue from the Combined Sewer Overflow study is $25,000. The Long Term Control Plan was submitted to DBC and EPA for their review on June 30, 2011. DEC will be contacting us to set up a meeting once they finish their review. At that time, we will get an indication of expectations during the next year regarding needed modifications to the submitted plan as well as moving forward with the mitigation measures outlined in the LTCP.
The Department of Health grant represents the second of a three year contract with Capital District Community Gardens to evaluate the land use/health connection.

We have been awarded a NYSERDA Climate Smart Communities Regional Coordinators Services grant for approximately $322,000. The project team will consist of CDRPC and the consulting firms of VHB and Climate Action Associates. Both firms are very familiar and knowledgeable about the Climate Smart Communities Program and are currently under contract with the City of Albany’s Office of Sustainability. CDRPC’s share of the grant is approximately $72,000. CDRPC will serve as Project Manager.

Under salaries, the proposed overall increase is 1.5%. At this time, there is no change in the number of staff needed to carry out the proposed work program. However, depending upon securing other grant opportunities or taking on additional responsibilities other than what is envisioned at this time, there may be a need for a budgetary adjustment for additional staff support.

The Intern line item has been refunded in order to assist the staff in carrying out the work program. With the release of 2010 Census data and data from the American Community Survey, it is critical that we continually update our data files, in particular the Community Fact sheets to reflect the recently released data. Through November of this year, we’ve had nearly 1.1 million hits on our web site. It is important that the posted data be timely and accurate to assure quality services to our customer base.

The Printing Line item has been increased to reflect the amount included as part of the NYSERDA budget for the Climate Smart Communities Grant.

The contribution to the State Retirement system is based on an estimated 2013 payment that will be paid in December 2012. Depending upon the employee’s tier, the projected rate will range from 18.6% to 23.2% of the projected salary. The recently paid 2012 payment ranged from 15.8% to 19.7%.

Despite an overall increase in Health insurance rates, staff changes in policy coverage will result in approximately the same overall costs to the Commission for its share of costs.

$11,884 will be taken from the Unreserved Fund Balance to balance the proposed 2012 Budget. For 2011, it appears that we will be drawing down approximately $10,000 from our Fund Balance despite appropriating $37,184 in order to balance the 2011 budget. If that is the case, our end of the year 2011 Fund Balance will be approximately $305,000.

Re: Long Term Control Plan – Combined Sewer Overflow Study

In mid November, CDRPC received word that NYS DEC and the US EPA are reviewing the draft Long Term Control Plan and would be contacting us to set up a meeting once they had finished their review. NYS DEC estimated that the meeting would occur in early to mid December.

On November 29, two US EPA staff members visited the cities of Albany, Cohoes and Rensselaer to take a look at the Big C overflow and overflow points that discharge into streams.

NYS DOS has not yet released the RFP for the next round of SMSI funding. It is anticipated that as soon as the RFP is announced, CDRPC will prepare an application for funding to explore alternative organizational arrangements for Phase II of the CSO project.

Re: Inter-Municipal Agreement & Bylaws

Enclosed for your information is the Inter-Municipal Agreement establishing the Commission and the Bylaws governing our operation. CDRPC was established in 1967 under Articles 12-B and 5-G of General Municipal Law by Albany, Rensselaer, Saratoga and Schenectady Counties. The dues paid to the Commission are per the approved bylaws which state that it be based on “its proportionate share of expenses based on the last available U.S. official full count census.”

In 1977, there was an amendment to the Agreement quoting only Article 5G as the legal basis for establishing the Commission. However, the basic functions remained the same as outlined under Article 12B. The reason for the change was, at that time, Article 12B required that the county engineer or superintendent of highways along with the County Comptroller, of each participating county shall be an ex-officio member of the Regional Planning Board. The four counties never complied with that requirement and therefore reference to Article 12B was dropped.

As a footnote, in 1997, based on the recommendations of the State Legislative Commission on Rural Resources and adopted by the State Legislature, Article 12B was modified to among other things, remove the requirements associated with ex-officio membership. As now written, Article 12B is now in line with how CDRPC and the other regional councils in New York State currently operate.

In 1983, the four counties passed a resolution further amending the Inter-municipal agreement. The Commission was reorganized and the bylaws were amended to expand the Commission’s membership from 12 to 20 members in order for the Board to carry out the governing Board functions of an Economic Development District.

Reference: Fiscal Year 2011 Preferred Sustainability Status

Dear Rocco:

The Department of Housing and Urban Development’s (HUD) Office of Sustainable Housing and Communities (OSHC) has completed its review of the Fiscal Year 2011 Sustainable Communities Regional Planning Grant and announced the recipients. While your application was not awarded a grant in this competition, we are pleased to inform you that your consortium has been awarded Preferred Sustainability Status, a special designation provided by HUD to recognize communities taking extraordinary steps toward strategic planning and development for their regions that is aligned with the federal Partnership for Sustainable Communities Livability principles.

Preferred Sustainability Status (PSS) will entitle you to two primary benefits during fiscal year 2012 (FY12). First, you will be able to take advantage of several technical assistance opportunities that will help you to advance sustainable planning and development in your communities. Some of these are the same opportunities that are being provided to the winners of this year’s competition. Second, a growing number of HUD discretionary grant programs recognize PSS in their competitions, providing additional bonus points for those that have earned the designation. In addition, we anticipate that a number of our federal partners will be unveiling their own plans to recognize PSS status this year. We will keep you apprised of every such opportunity.

In terms of learning more about the application process, if you wish to discuss your application, Section VI (Award Administration Information) of the General Section to HUD’s FY 2011 NOFAs for Discretionary Programs states that debriefings will be available for a period of at least 120 days, beginning 30 days after the awards for assistance are publicly announced. A request for debriefing must be made in writing or by email by the authorized official whose signature appears on the SF424 or by his or her successor in office. Requests must be submitted to the person identified as the contact in the individual program NOFA under which the applicant applied for assistance and must be submitted by March 1, 2012. Please provide your written request to the following mailing address or email address:
