Source: U.S. Dept. of Commerce, Bureau of the Census, 2012-2016 American Community Survey

Note: The ACS replaces the decennial census long form. CDRPC recommends using the 5-year data, which is more reliable than the 1- or 3-year data. This also allows for better comparability among municipalities. For more information, please see <http://cdrpc.org/ACS.html>

Note: The Margins of Error (MOE) suitable for creating 90% confidence intervals are now published for most of the estimates. Statistically, there will be a 90% probability that the true population parameter (e.g., mean, median, percent, etc.) falls within the interval: ESTIMATE ± MOE.
